

Mission, Vision, Values

Soldaduras Industriales S.A. produces and develops alloys for the brazing and soldering industry since 40 years ago. All activities and functions are to improve our products quality, our customer services and our compromises with the customer's demand and with our collaborators.

Our Mission

To be a strategic and essential partner to satisfy the requirements by our Customers to obtain a long and a solid relationship.

SISA uses its experiences in the brazing to provide our products and services in a responsible way.

Our Vision

To be recognized between the leaders of the sector due to our products, services and human team.

Valued by our Customers like essential partners in its objectives offering seriousness, quality and competitiveness.

To maintain the confidence and the credibility of the firm with all our Collaborators.

Our Values

We believe in:

- The Customer's attention,
- The respect to the People,
- The Team's work,
- The diversity and the sustainable development.
